

A close-up photograph of a green leaf with prominent veins and numerous small, clear water droplets resting on its surface. The droplets vary in size and are scattered across the leaf's surface, reflecting light. The leaf's veins are a darker green, creating a network of lines across the lighter green leaf blade.

## EEA-Eionet What we do

European Environment Agency

# EEA-Eionet Strategy 2021-2030: Vision

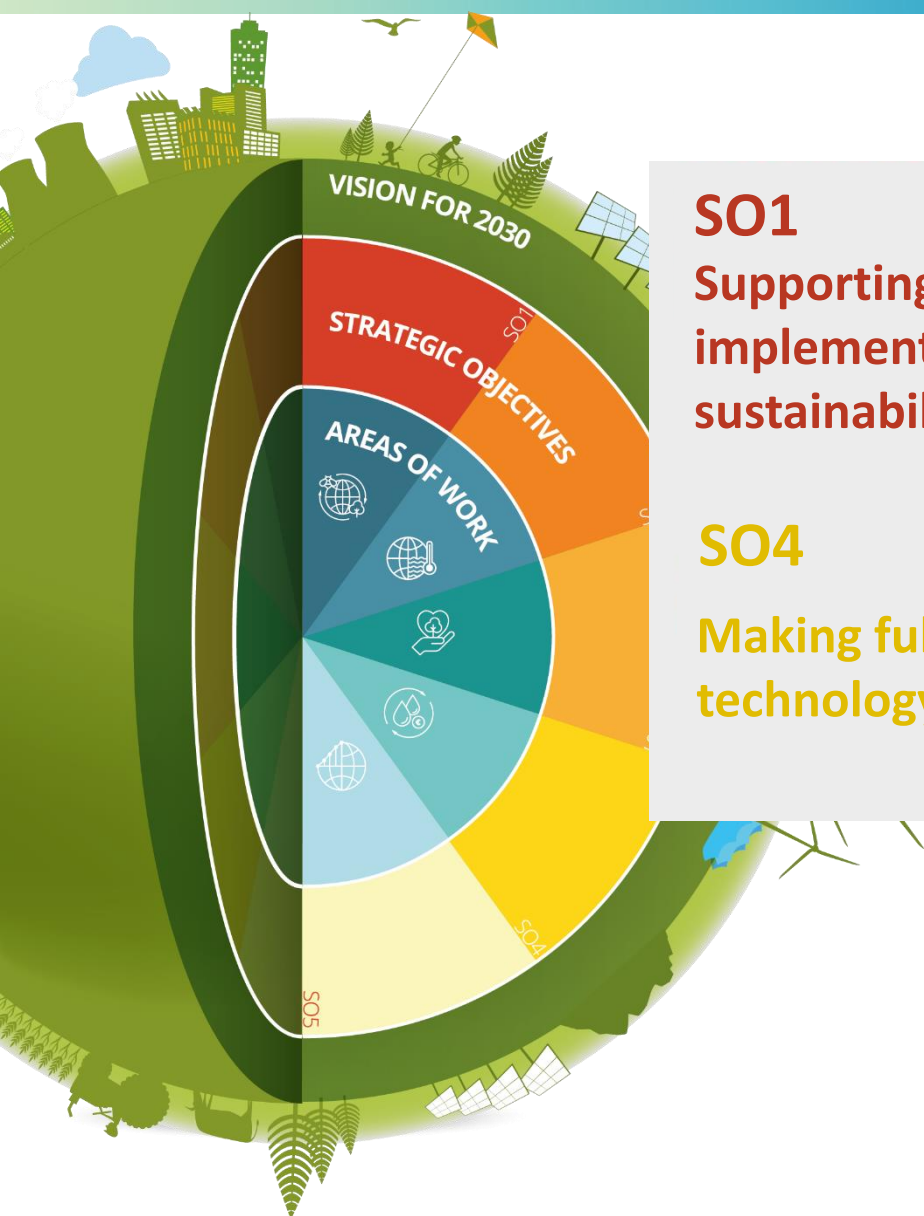

Our vision is to enable a sustainable Europe through **trusted and actionable knowledge** for informed decision-making on **environment and climate priorities** and solutions, in line with Europe's **policy ambitions**.

EEA and Eionet will together constitute the **leading network** for policy-relevant environment and climate knowledge at European Union and country levels.

# EEA-Eionet Strategy 2021-2030: Strategic objectives

## SO1

Supporting policy implementation and sustainability transitions

## SO2

Providing timely input to solutions for sustainability challenges

## SO3

Building stronger networks and partnerships

## SO4

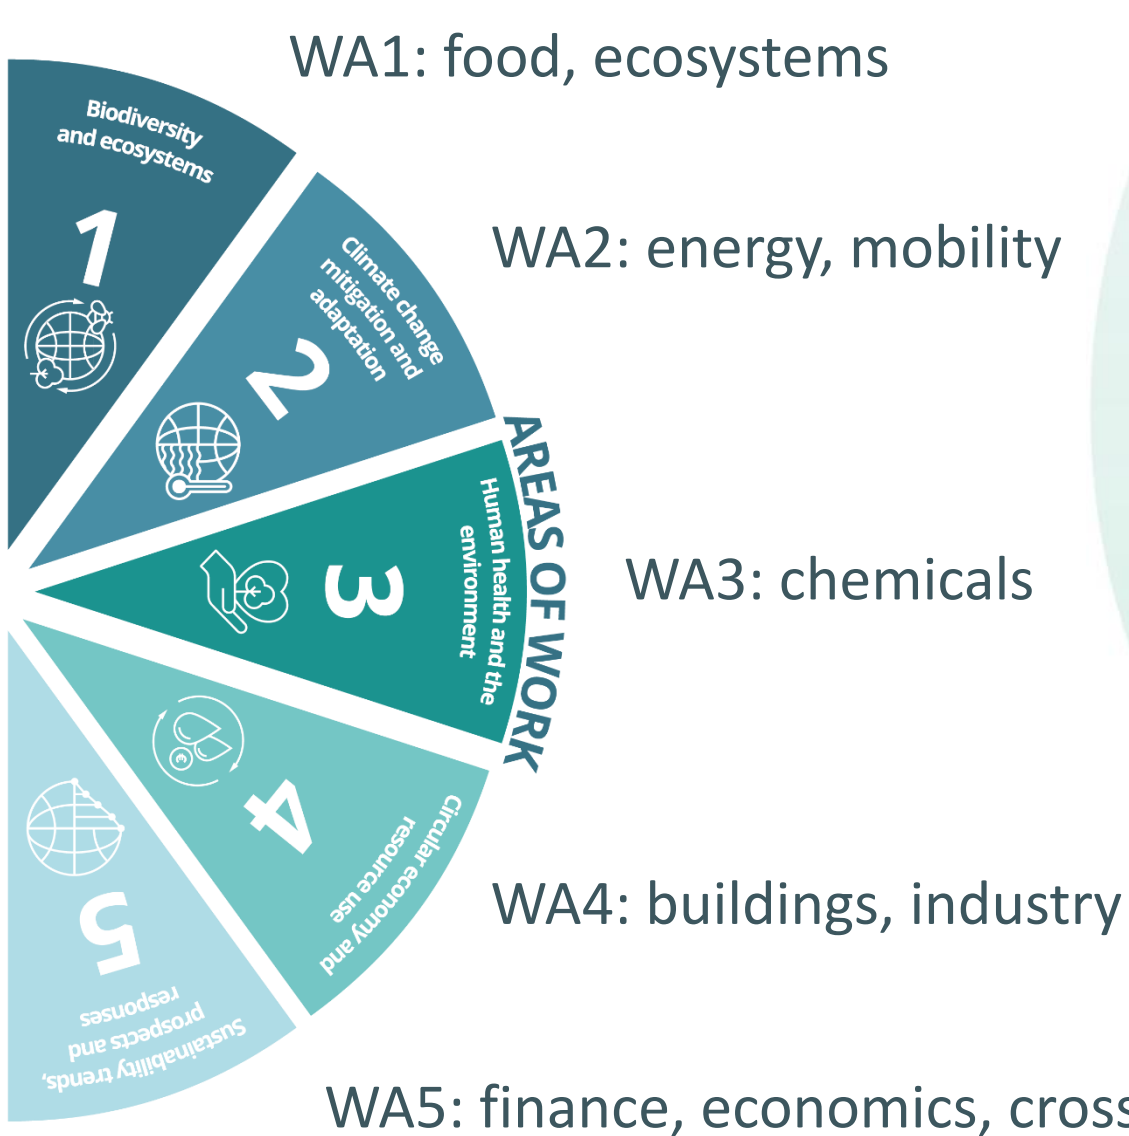

Making full use of the potential of data, technology and digitalisation

## SO5

Resourcing our shared ambitions

# Engaging with the systemic framing of the EGD

# EEA and Eionet start the 2020s in a strong position

## The European environment — state and outlook 2020

Knowledge for transition to a sustainable Europe

Delivering data and knowledge to achieve  
Europe's environment and climate ambitions

## EEA-Eionet Strategy 2021–2030

European Environment Information and Observation Network

European Environment Agency

## Building on the successes of recent years:

- Linking science to policy (e.g. EGD, 8EAP)
- New strategy giving greater priority to knowledge for sustainability and more solutions-oriented knowledge
- Stronger networks and partnerships: research, policy, civil society
- Stronger resource position in 2020 and 2021-2027
- New ETC configuration

# Implementing the Strategy @EEA

Through strategic investments in:

- **Networking and partnerships (Eionet modernization)**
- **Digitalisation** (IT framework)
- Learning and competencies (HR framework)
- Trusted, supportive and agile communication (Communication framework)
- Science-policy interface
- Knowledge development towards SOER 2025 and beyond

# Innovation in Eionet network

Two main dimensions:

1. **New priorities.** Focus on 5 areas of work, the links between these dimensions, systems, increasing capacities on **solutions towards sustainability**
2. New working methods. Encouraging **flexibility, responsiveness**, joint learning, innovation, **digitalisation**, co-creation...

Ensure greater and clearer **added value for the countries** – *develop a more joint/co-led network community*

# EEA-Eionet Strategy 2021-2030: Strategic objectives

**SO1**

Supporting policy implementation and sustainability transitions

**SO2**

Providing timely input to solutions for sustainability challenges

**SO3**

Building stronger networks and partnerships

**SO4**

Making full use of the potential of data, technology and digitalisation

**SO5**

Resourcing our shared ambitions

## Digital drivers for change

### A Europe fit for a digital Age

High expectations on the usability of the INSPIRE data infrastructure.

#### DIGITAL EUROPE PROGRAMME

##### FIVE FOCUS AREAS UNDER DIGITAL EUROPE PROGRAMME:

**WP 2021 -2022 under DEP**  
*Digital for Planet chapter*

**Towards and EU common green  
dataspace in support of the Green  
Deal (CNECT.H5)**

#### EUROPEAN DATA STRATEGY

##### Green Deal Dataspace

- **EU GREEN DATA4ALL (ENV.A4)**
- **A EU Dataspace for Smart Circular Applications (EDSCA) (ENV.B)**
- **A pilot for the "zero pollution ambition" (ENV.C)**
- **Destination Earth (CNECT.C1)**

#### EUROPEAN DATA PACKAGE

##### OPEN DATA & PSI DIRECTIVE

*High Value Data sets (CNECT.G1)*

# Green data space – underlying EU activities

- „GreenData4All“ initiative – evaluate and review INSPIRE, Open Data and Access to Environmental Information Directives (Q4 2021 – Q1 2022)
- Roll out re-usable data-services for large data volumes
- Data space for smart circular applications, digital product policy and passports ...
- Pilot for early implementation in the area of „Zero pollution ambition“
- Launch „Destination Earth“ initiative - bringing together scientific and industrial excellence to establish digital model of the earth

# European Green Data Task Force - mandate

## **Purpose:**

Effective management of environment and climate data supporting the European Green Deal

## **Governance:**

Participants form the partners of the Environment Knowledge Community (EKC) in the TF:  
DG ENV, CLIMA, RTD, JRC, ESTAT, AGRI, DEFIS, EEA - DG ENV and EEA as co-chairs

Established in 2020 and continuing Task Forces activities on

- Environmental data centres and
- Interoperability of platforms and catalogues on ecosystem-based initiatives

## **Tasks:**

- Propose governance arrangements
- Improve data mapping
- Define user needs
- Facilitate data access and sharing

# EEA-Eionet Digitalisation Framework 2021-2030

Linking EEA-Eionet Strategy with implementation activities

Identifying activity areas

Listing needed actions

Establishing a dynamic roadmap with concrete activities

# Summary

## The European Green Deal

provides the new policy driver

## Digitalisation

is the key enabler to help “unlock value from data”

## EEA-Eionet fully involved

Digital technologies are crucial for the EU to become climate neutral by 2050, the goal set in the European Green Deal.

**Energy  
networks**

**Precision  
farming**

**Mobility and  
transport**

**Smart  
buildings**

**Green data  
spaces**

**The power of  
data**
